

Wind Technical Standards Committee  
Minutes  
March 23, 2021  
11:00 AM – 12:30 PM, Eastern  
Conference Call

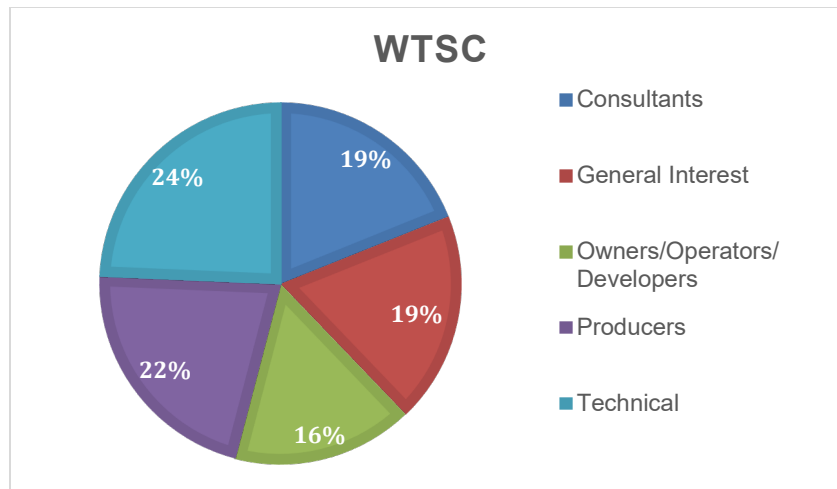

Minutes

1. Welcome: Brian Kramak, Kramak Enterprises
2. Roll Call: ACP Staff
  - a. Quorum was met. 26 voting members attended.
3. Review and Approve Agenda: Brian Kramak, Kramak Enterprises
  - a. No edits, objections.
  - b. Warren Bollmeier motion, Dan Brake 2<sup>nd</sup>, all approve, no objections
4. Approval of November meeting minutes: Brian Kramak, Kramak Enterprises
  - a. Warren Bollmeier motion, Mike Edds 2<sup>nd</sup>, all approve, no objections
  - b. Action item: two-week ballot
5. ACP Update: ACP Staff
  - a. Michele Mihelic noted that Jan 7, transfer of ANSI accreditation from AWEA to ACP with the updated scope. New SDP. Received approval of application on Feb 16 from ANSI, March 5 ANSI published new scope to SA with 30-day public comment period. Received one comment: great from IEEE, reach out if you want to partner. Week of April 5 will start moving forward with ballots.
    - i. Link Diwan: any change to registration numbers/designation?
    - ii. Michele Mihelic noted that we did update our designations from AWEA to ACP see the announcement in ANSI *Standards Action at <https://share.ansi.org/Shared%20Documents/Standards%20Action/2021-PDFs/SAV5206.pdf>*. For currently published standards, we did not update because they are coming up for review in a year or so. We will update the name change at that point. We will share the list of published standards and when they need to be reviewed.

Name	ANSI Approval Date	5 Year (reaffirmed, revised, or withdrawn)	10 Year (ANSI approval of an American National Standard automatically expires on the tenth anniversary date of its approval)
ANSI/AWEA 61400-12-1, POWER PERFORMANCE MEASUREMENTS OF ELECTRICITY PRODUCING WIND TURBINES	6/23/2016	6/23/2021	6/23/2026
ANSI/AWEA 61400-11 (2017)/61400-11 IEC:2012(E), WIND TURBINE GENERATOR SYSTEMS PART 11: ACOUSTIC NOISE MEASUREMENT TECHNIQUES	8/18/2017	8/18/2022	8/18/2027
IEC 61400-13:2015 © IEC 2015, WIND TURBINE PART 13: MEASUREMENT OF MECHANICAL LOADS	8/18/2017	8/18/2022	8/18/2027
IEC 61400-23:2014 © IEC 2014, WIND TURBINES PART 23: FULL-SCALE STRUCTURAL TESTING OF ROTOR BLADES	8/21/2017	8/21/2022	8/21/2027

ANSI/AWEA 61400-27-1, PART 27-1: ELECTRICAL SIMULATION MODELS – WIND TURBINES	12/21/2017	12/21/2022	12/21/2027
-------------------------------------------------------------------------------------	------------	------------	------------

- iii. Subcommittees and Working Groups have AWEA in their name. Do we want to change these names to ACP-1, ACP-24? If we do want to make changes we need to motion and vote.
  - 1. Dan Brake noted that since AWEA-1 is almost done, I say it's creating extra work, but makes sense for -24.
  - 2. Link Diwan suggested we change everything and move AWEA and change to ACP to help make it easier to help with the transition. I prefer uniformity.
  - 3. Brian Mathis agreed with Link.
  - 4. Kirk Morgan noted whatever the least expensive and problematic on the publications side.
  - 5. Michele Mihelic noted changing the subcommittee names doesn't have a cost associated with it.
  - 6. Link Diwan made a motion to adopt ACP name and branding in future ACP publications and subordinate group names. Warren 2<sup>nd</sup>.
    - a. Aye's have it. No objections Motion passed.
    - b. Action item: two-week ballot
- iv. Michele Mihelic noted that after our last audit, ANSI decided to conduct a special audit. The special audit is still needed. We have a few standards that are ready for the audit phase. These documents are ready for the BSR9. We have three documents ready for the BSR9 form. Once ready, we will notify ANSI.
  - 1. Brent Summerville asked what they are going to audit.
  - 2. Michele Mihelic noted that ACP gets to pick the standard. They are looking for that we have corrected issues from first audit (calculation of consensus; ensuring resolution of all comments, making sure we have confirmation that we resolved comments, but that they responded back; recordkeeping). The two documents that are ready on WWSC, but the committee is currently if out of balance. A committee can be out of balance as long as you are making an effort to recruit. We will let everyone know as soon as we schedule the special audit.
- b. New WTSC application
  - MotorDoc LLC application under the consultant category. Branka Stemack with MotorDoc was on the call to provide an overview of the organization. The group voted to approve the membership application.
    - i. Link Diwan motion to approve application, Mike Edds, 2<sup>nd</sup>. No objections. Action item: two-week ballot
- c. Membership update
  - i. Balance and participation
    - 1. Sabrina Morelli shared the current balance. This group is in balance.

- ii. Christy Lan noted that BSEE is not supposed to vote, but ok to attend meetings. BSEE will clarify on their end with their legal department.
  - iii. Michele Mihelic noted if BSEE can't vote, ACP many need to move BSEE to observer status.
  - iv. AIS membership: ACP staff to reach out to AIS and see if they have another person. Will have an update for the June meeting.
6. Closed ballots: ACP Staff  
The following ballots are closed and passed. Details on each ballot is online, [click here](#).
- a. Approval to create a new Sound Subcommittee with Mark Bastasch, JACOBS, as the Chair
  - b. Approval of WTSC August Meeting
  - c. Approval of Jay Prigmore, Ph.D., P.E., Exponent, as the Chair of the AWEA-24 Subcommittee
7. Subcommittee and Task Force Updates
- a. Electrical Task Force, Chair: Chris Petrola, Enel Green Power North America, and Mike Edds, Pattern Energy Group
    - i. Mike Edds noted there has been a bit of a pause with Chris changing jobs. Mike provided the following update:
      - 1. IEEE p2800 update: Important standard in development. A lot of participants from the wind side. Open for public comment and ballot. Ballot ends April 10. Public review ends May 9. Interconnection standard, covers wind and solar. Power, capabilities the equipment should have, etc. <https://publicreview.standards.ieee.org/public-review-web/public-app>
        - a. Michele Mihelic noted that ACP did a joint webinar with SEIA, EPRI, and IEEE, [click here to view the webinar recording](#). Michele noted that ACP is in talks with IEEE to put together an MOU, part of this will include a stronger collaboration on standards development.
  - b. AWEA-1 Subcommittee (61400-1), Chair: Dan Brake, ARESCA
    - i. Dan Brake noted the draft is being formatted by ACP staff and waiting for next step.
  - c. AWEA-24 Subcommittee (61400-24), Chair: Jay Prigmore
  - d. Offshore Wind Subcommittee, Chair: Walt Musial, NREL

- b. Brian Kramak noted we are now clean power and not just wind. Not always cross over, but with electrical there is. What should this group focus on? Are there groups that want to work in other areas? Or do we set up a mirror group for solar?
  - i. Mike Edds noted that Pattern is doing solar work, as many developers are. He noted they are finding the wind standards for AC applies, but for DC it doesn't apply. DC going to arrays, converters, etc. This is a whole new area that would need to be addressed. He noted he didn't think there is an applicable IEC standard for DC, it's mostly local code.
  - ii. Brian Kramak asked would the same electrical task force for wind be applicable for solar. Technologies, should they be their own group?
  - iii. Mike Edds noted that solar is a different animal – we need to pull in some people to help with this.
  - iv. Michele Mihelic noted the current scope for this group is wind specific. Do we want to expand the scope of this group or should solar/storage/hydrogen/batteries? OR creating a different consensus body? Michele noted we don't need to make a decision now unless there's a pressing reason.
  - v. Mike Edds noted there's a lot of solar development going on, so we need something soon.
  - vi. Link Diwan noted we definitely do need to have best practices or guidance on how these different system interface. Functionally they are looked at as separate components.
    - 1. Mike Edds, agree
  - vii. Brian Kramak suggested we start solar as a new subcommittee under this group. He noted he sees it like a new baby brother. Primarily to address overlaps. Each gets its own subcommittee.
  - viii. Mike Edds noted instead of solar, storage, etc. how about AC and DC focus.
    - 1. Brian Kramak noted it's reasonable in organization of electrical.
  - ix. Michele Mihelic noted if you do move forward with creating subcommittees, we will need to revisit the scope of this committee before moving forward with any standards.
  - x. Brian Kramak noted relevant for electrical and structures too.
  - xi. Jeroen van Dam asked has anyone asked the solar industry what they want.
    - 1. Michele Mihelic noted that under ACP we have been incorporating solar and storage into portfolios. From operational strategy perspective, there are no groups working on this specific issue. From a standards perspective, there are some organizations (IEEE, UL) that have various standards.
  - xii. Chris Morris noted he can help reach out to solar.
  - xiii. Warren Bollmeier noted you have to investigate if you need a special standard for integrated systems (solar, wind, storage). We need to hash this out more.
  - xiv. Action: Update scope to change from AWEA to ACP. Agenda item at next meeting.
- 9. Proposed 2021 Meeting Schedule:
  - a. March 23, 11:00 AM – 12:30 PM, Eastern, Conference Call
  - b. June 22, 11:00 AM – 12:30 PM, Eastern, Conference Call
  - c. August 23, during OMS Round Rock, TX (TBD) – In person or Conference Calls

- d. November 16, 11:00 AM – 12:30 PM, Eastern, Conference Call
  - i. Motion: Warren Bollmeier, Greg Poulos, 2<sup>nd</sup>: approved, no objections.  
Action item: two-week ballot

10. Adjourn

Action Items:

- Create generic Gantt chart that shows standards approval process.
- Two-week ballots:
  - Approval of November meeting minutes.
  - Approval to adopt ACP name and branding in future ACP publications and subordinate group names.
  - Approval for MotorDoc LLC membership application.
  - Approval to update WTSC scope, only change is swap AWEA for ACP.
  - Approval of 2021 meeting schedule.

Attendees:

<b>Voting Members</b>		
<b>Company</b>	<b>Member</b>	<b>Type</b>
Acciona Energy USA Global LLC	Mathis, Brian	Primary
ArcVera Renewables	Bosche, John	Primary
ArcVera Renewables	Poulos, Gregory	Alternate
ARESCA	Brake, Dan	Primary
Avangrid Renewables	Morris, Christopher	Primary
Avanti Wind Systems	Metzinger, Luke	Primary
Barr Engineering Company	Morgan, Kirk	Primary
Bergey Windpower Co. Inc.	Bergey, Mike	Primary
Bureau of Safety and Environmental Enforcement	Lan, Christy	Alternate
Clear Wind	McCabe, Matt	Primary
DNV GL	Griffin, Dayton	Primary
Energy Systems Integration Group (ESIG)	Jordan, Benjamin	Primary
Elevator Industry Work Preservation Fund	Barrett, Carisa	Primary
GE Renewable Energy	Helton, Mark	Primary
HSB - Hartford Steam Boiler	Diwan, Linkesh	Primary
National Renewable Energy Laboratory	van Dam, Jeroen	Primary
nVent	Holm, Dan	Alternate
Pattern Energy Group LP	Edds, Michael	Primary
Penn State University	Stewart, Susan W.	Primary
RE Innovations LLC	Spossey, Joseph	Primary
Siemens Gamesa Renewable Energy	Sharifi, Masoud	Primary
Small Wind Certification Council	Martin, Shawn	Primary
Spire Engineering Services LLC	Sheppard, Robert	Primary
Terra-Gen LLC	Hu, Yuanlong	Primary
University of Texas at Austin	Manuel, Lance	Primary

Vestas North America	Taylor, Trevor	Primary
WSB-Hawaii	Bollmeier, Warren	Primary

<b>Non-Voting Attendees</b>	
<b>Company</b>	<b>Name</b>
JACOBS	Bastasch, Mark
Bureau of Safety and Environmental Enforcement	Kozak, Mark
Kramak Enterprises	Kramak, Brian
AEP Renewables	Li, Brian C.
Canadian Renewable Energy Association	McKay, Phil
National Renewable Energy Laboratory	Musial, Walt
DNV GL	Ntambakwa, Eric
Bureau of Safety and Environmental Enforcement	Oliver, Christopher
EAPC Wind Energy	Sherwin, Robert
National Renewable Energy Laboratory	Summerville, Brent
MotorDoc LLC	Stemack, Branka
